Profile

With 4 years of professional experience as a Front-End Developer, I bring expertise in technologies such as HTML5, CSS3, SCSS, CSS Modules, JavaScript, TypeScript, React, Redux, GraphQL, Storybook, and Next.js. I have a strong background in state management using Redux and am skilled in utilizing testing frameworks like Jest and React Testing Library to ensure code quality and reliability. My development workflow is optimized with tools like Webpack, Babel, NPM, and Yarn, and I'm proficient in version control using Git, often collaborating on platforms such as GitHub.

I thrive in team environments, embracing agile methodologies like Kanban to foster collaboration and deliver high-quality solutions. My passion for continuous learning drives me to stay updated with the latest technologies and trends, ensuring I bring innovation and efficiency to every project.

Experience

CATSKILLET
Front-End Developer

Jul 2024 - Present

- Developed dynamic and responsive web applications using modern frameworks such as React, Angular, and Vue, based on project requirements.
- Implemented clean, maintainable code with TypeScript for enhanced scalability and reliability.
- Proficient in API testing and debugging using Postman, ensuring seamless integration between front-end and back-end.
- Applied Node.js for back-end development to build robust server-side solutions.

STUDIO SOL
Front-End Developer

Jan 2022 - May 2024

- Collaborated with the development team to design and implement a comprehensive Design System, enhancing UI consistency and reusability.
- Integrated Firebase Cloud Messaging into the application to enable real-time notifications and improved user engagement.
- Contributed to the migration of a legacy project to Next.js with Redux Toolkit, optimizing performance and modernizing the codebase.
- Worked closely with the frontend team to design and implement a free trial feature, enhancing user experience and onboarding processes.
- Ensured web accessibility compliance by implementing inclusive front-end practices, adhering to WCAG guidelines, and optimizing applications for users with disabilities.

DOT DIGITAL GROUP
Front-End Developer

Apr 2021 - Jan 2022

- Developed and optimized a comprehensive style guide using HTML5, CSS, and JavaScript, ensuring responsiveness with CSS media queries.
- Collaborated with Product Management and stakeholders to design and implement secure, well-tested features aligned with business requirements.
- Maintained code quality by adhering to internal standards and conducting thorough code reviews in a high-scale web environment.
